

## DAFTAR GAMBAR

|                                                                      |    |
|----------------------------------------------------------------------|----|
| Gambar 2. 1 Exoskeleton Lengan.....                                  | 6  |
| Gambar 2. 2 Ektreminitas Atas .....                                  | 7  |
| Gambar 2. 3 Gerak Lengan Ekstensi-Fleksi .....                       | 8  |
| Gambar 2. 4 MPU 6050.....                                            | 9  |
| Gambar 2. 5 EMG.....                                                 | 10 |
| Gambar 2. 6 Baterai .....                                            | 11 |
| Gambar 2. 7 ESP32.....                                               | 12 |
| Gambar 2. 8 Motor DC .....                                           | 13 |
| Gambar 3. 1 Diagram Blok Transmitter, b) Diagram Blok Receiver ..... | 16 |
| Gambar 3. 2 Diagram Alir Mode MPU6050 .....                          | 17 |
| Gambar 3. 3 Diagram Alir Mode EMG .....                              | 18 |
| Gambar 3. 4 Desain Alat.....                                         | 19 |
| Gambar 4. 1 Desain Rangkaian Transmitter.....                        | 25 |
| Gambar 4. 2 Desain Rangkaian Receiver .....                          | 26 |
| Gambar 4. 3 Desain Alat.....                                         | 26 |
| Gambar 4. 4 Grafik MPU6050 Transmitter .....                         | 28 |
| Gambar 4. 5 Grafik MPU6050 Ujung .....                               | 29 |
| Gambar 4. 6 Grafik 4 bpm .....                                       | 31 |
| Gambar 4. 7 Grafik Linear 4 bpm.....                                 | 31 |
| Gambar 4. 8 Grafik 8 bpm .....                                       | 32 |
| Gambar 4. 9 Grafik Linear 8 bpm.....                                 | 32 |
| Gambar 4. 10 Output Sinyal Rangkaian AD620.....                      | 33 |
| Gambar 4. 11 Output Sinyal Rangkaian BPF dibawah FC.....             | 34 |
| Gambar 4. 12 Output Sinyal Rangkaian BPF ditengah FC .....           | 34 |
| Gambar 4. 13 Output Sinyal Rangkaian BPF diatas FC.....              | 34 |
| Gambar 4. 14 Output Sinyal Rangkaian Non Inverting.....              | 35 |
| Gambar 4. 15 Grafik MPU6050 Responden.....                           | 37 |
| Gambar 4. 16 Grafik Data EMG Responden.....                          | 38 |

|                                                                    |    |
|--------------------------------------------------------------------|----|
| Gambar 4. 17 Frekuensi Sampling dan Besar Nilai Raw Data EMG ..... | 39 |
| Gambar 5. 1 Rangkaian AD620 .....                                  | 40 |
| Gambar 5. 2 Rangkaian BPF 1 IC .....                               | 40 |
| Gambar 5. 3 Rangkaian Non Inverting .....                          | 41 |
| Gambar 5. 4 Stepdown Motor DC .....                                | 41 |
| Gambar 5. 5 Rangkaian Transmitter .....                            | 42 |
| Gambar 5. 6 Rangkaian Receiver .....                               | 43 |
