"IMPLEMENTATION OF COVID-19 HEALTH PROTOCOL ON PROBOWANGI ECONOMY TRAIN (Case Study on Probwangi Railway Series PT. KAI DAOP VIII Surabaya Year 2021)".

xiv + 45 Pages + 2 Tables + 16 Pictures + 9 Attachments

Trains are a mode of public transportation that can be agents of the spread of COVID-19. The crew/workers, and passengers must implement the COVID-19 health protocol and be supported by supporting facilities in accordance with the ministry's regulations correctly to minimize the level of transmission of COVID-19. The purpose of this study is to review the implementation of COVID-19 health protocols on probwangi economy railways.

This study uses descriptive research type with observational method and qualitative data type. The data analyzed statistical descriptions presented in the form of narration, tables, and images. This type of descriptive research is used to describe the implementation of the COVID-19 health protocol on the Probwangi economy railway.

The result shows that passengers who do not wear masks as much as 5%, passengers who do not wear long-sleeved clothing as much as 6%, passengers who do not apply *physical distancing* as much as 0%, passengers with a body temperature of $\geq 37.3^{\circ}\text{C}$ as much as 0%, hand washing facilities using soap or handsanitizer that does not meet the requirements as much as 3%.

The advice that can be done to passengers is to continue to implement the COVID-19 health protocol by wearing masks and wearing long-sleeved clothing properly. To PT. KAI is to increase supervision of passengers to always apply health protocols in the train and increase regular monitoring of handwashing facilities so that they can be used at any time.

“PENERAPAN PROTOKOL KESEHATAN COVID-19 PADA KERETA API EKONOMI PROBOWANGI (Studi Kasus pada Rangkaian Kereta Api Probwangi PT.KAI DAOP VIII Surabaya Tahun 2021)“.

xiv + 45 Halaman + 2 Tabel + 16 Gambar + 9 Lampiran

Kereta api merupakan moda transportasi umum yang dapat menjadi agen penyebaran COVID-19. Pihak pengeloa, awak/pekerja, dan penumpang harus menerapkan protokol kesehatan COVID-19 dan didukung oleh fasilitas penunjang sesuai dengan regulasi kementerian dengan benar untuk meminimalisir tingkat penularan COVID-19. Tujuan penelitian ini untuk mengkaji penerapan protokol kesehatan COVID-19 pada kereta api ekonomi Probwangi.

Penelitian ini menggunakan jenis penelitian deskriptif dengan metode observasional dan jenis data kualitatif. Data dianalisa statistik deskripsi yang disajikan dalam bentuk narasi, tabel, dan gambar. Jenis Penelitian deskriptif ini digunakan untuk menggambarkan penerapan protokol kesehatan COVID-19 pada kereta api ekonomi Probwangi.

Hasil penelitian menunjukkan bahwa penumpang yang tidak memakai masker sebanyak 5%, penumpang yang tidak memakai pakaian lengan panjang sebanyak 6%, penumpang yang tidak menerapkan *physical distancing* sebanyak 0%, penumpang dengan suhu tubuh $\geq 37,3^{\circ}\text{C}$ sebanyak 0%, sarana cuci tangan menggunakan sabun atau handsanitizer yang tidak memenuhi persyaratan sebanyak 3%.

Saran yang dapat dilakukan kepada penumpang yaitu untuk tetap menerapkan protokol kesehatan COVID-19 dengan memakai masker dan memakai pakaian lengan panjang dengan benar. Kepada PT. KAI yaitu meningkatkan pengawasan terhadap penumpang agar selalu menerapkan protokol kesehatan di dalam kereta api dan meningkatkan pemantauan secara berkala terhadap sarana cuci tangan agar bisa digunakan setiap saat.
