"EVALUATION OF MARKET SANITATION OF COMMUNITY RESILIENCE INSTITUTIONS IN WONOREJO RUNGKUT SURABAYA SUB-SURABAYA, 2021"

xv + 67 Pages + 10 Tables + 3 Pictures + 4 Appendices

Market sanitation is an effort to control the effects arising from market activities and can cause or spread a disease. The Wonorejo Village Community Resilience Institution (LKM) market is an effort to improve welfare, maintain public order and environmental cleanliness. This study aims to evaluate sanitation in the LKM market in Wonorejo Rungkut Surabaya in 2021.

This research is descriptive observation with cross sectional approach. This study describes and illustrates from the data collected in the form of market sanitation assessments in the LKM Wonorejo Rungkut Surabaya market which was carried out based on observations and research data analysis was carried out based on the regulation of the Decree of the Minister of Health of the Republic of Indonesia No. 519 of 2008 concerning Guidelines for the Implementation of Healthy Markets and using a SWOT analysis approach.

The results show that the market sanitation assessment of LKM Wonorejo is 66.06% (enough category). The market location and building assessment is 70% (good category), market sanitation facilities are 61.53% (enough category) and clean and healthy living behavior is 66.66% (enough category). The results of the SWOT analysis show that sanitation facilities in the Wonorejo LKM market are in quadrant 1, which is supporting an aggressive growth policy (growth oriental strategy).

It is suggested that based on Kepmenkes No. 519/MENKES/SK/VI/2008, it is necessary to supervise and monitor infrastructure in the provision of waste between organic and inorganic waste. Then it is necessary to have a hand washing place at every stall/kiosk. A thorough disinfectant is carried out one day a month in order to maintain market conditions.

“EVALUASI SANITASI PASAR LEMBAGA KETAHANAN MASYARAKAT KELURAHAN WONOREJO RUNGKUT SURABAYA TAHUN 2021”

xv + 67 Halaman + 10 Tabel + 3 Gambar + 4 Lampiran

Sanitasi pasar merupakan usaha pengendalian terhadap pengaruh-pengaruh yang ditimbulkan dari kegiatan pasar dan dapat menimbulkan atau merebaknya suatu penyakit. Pasar Lembaga Ketahanan Masyarakat Kelurahan (LKM) Wonorejo menjadikan upaya dalam meningkatkan kesejahteraan menjaga ketertiban umum dan kebersihan lingkungan. Penelitian ini bertujuan untuk mengevaluasi sanitasi di pasar LKM Wonorejo Rungkut Surabaya Tahun 2021.

Penelitian ini bersifat observasi deskriptif dengan pendekatan *cross sectional*. Penelitian ini mendeskripsikan dan menggambarkan dari data yang terkumpul berupa penilaian sanitasi pasar di pasar LKM Wonorejo Rungkut Surabaya yang dilakukan berdasarkan observasi dan dilakukan analisis data penelitian berdasarkan regulasi Keputusan Menteri Kesehatan RI No. 519 Tahun 2008 tentang Pedoman Penyelenggaraan Pasar Sehat dan menggunakan pendekatan analisis SWOT.

Hasil penelitian menunjukkan penilaian sanitasi pasar LKM Wonorejo 66,06% (kategori cukup). Penilaian lokasi dan bangunan pasar sebesar 70% (kategori baik), fasilitas sanitasi pasar sebesar 61,53% (kategori cukup) serta perilaku hidup bersih dan sehat sebesar 66,66% (kategori cukup). Hasil analisis SWOT diketahui fasilitas sanitasi di pasar LKM Wonorejo berada pada kuadran 1 yaitu mendukung kebijakan pertumbuhan yang agresif (growth oriental strategi).

Disarankan berdasarkan Kepmenkes No.519/MENKES/SK/VI/2008 perlu dilakukan pengawasan dan pemantauan sarana prasarana pada penyediaan sampah antara sampah organik dan anorganik. Kemudian perlu adanya tempat cuci tangan pada setiap los/kios. Dilakukannya disinfektan menyeluruh sehari dalam sebulan agar kondisi pasar tetap terjaga.
